We welcome applications from diverse backgrounds and experiences in 3PL's and beyond.

Your tasks and responsibilities

- Solve problems critical to both short and long-term supply chain improvements for our clients' businesses:
 - Data management (DQ and outlier identification and data cleaning)
 - Define/understand the problem
 - Structure and conduct analyses
 - Present findings using both MS Excel, MS PowerPoint, MS Words, and Tableau
 - Collaborate with the account management and operations teams to plan and execute initiatives
 - Share knowledge and create case studies for successful implementation of key initiatives
- Collaborate with senior leaders at K+N, account team, operations team, business development team, and clients
- Proactively identify improvement opportunities, build sophisticated analytical models, and drive impact.
- Be great to work with! We seek candidates with positive attitudes, collaborative spirits, passion for problem solving, and sense of humor.
- Support Business Development team in identifying supply chain improvement opportunities for new clients through high-level analysis, market analysis, and bid response..

Your skills and experience

- 3-5 years of professional experience
- Quantitative academic experience (e.g. Engineering, Economics, Mathematics, Supply Chain Management)
- Distinctive problem-solving skills and love for data/analytics
- Strong oral and written communication skills
- Clear track record of working effectively in team situations with various timeline and project scale and scope
- Strong entrepreneurial energy and ownership mindset
- Fluency in quantitative and analytical tools (e.g. Excel, SQL, Tableau, R).
